What are the WO phases?

- The life cycle of a work order is divided into activities
- These activities are grouped into 14 phases
- Click on the ? next to each phase for the description

What are the Status definitions?

- The summary of the status for each phase is shown here
- N/A – The activities in this phase do not apply to this work order
- NOT STARTED – None of the activities in this phase have been started
- IN PROGRESS – At least one of the activities in this phase has been started
- COMPLETED – All of the activities in this phase have been completed

Why is there only one Date on each phase?

- The phases are not continuous but concurrent
- There can be multiple activities in progress at the same time in different phases
- The Date for that phase is when the first activity in that phase was started

How do I go back to the Work Order List?

- Use the back arrow of your browser in the top left-hand corner of the application
- Click on Home in the left side panel

BACK
